Projects

Ableton About clone
- Replicated a production grade landing page to learn how to build responsive pages using Tailwind CSS with ReactJS.

Camp Review
- Built a full stack application as a final project from a web development Udemy course that featured user authentication, live reviews, and maps.
- Gained exposure to working with backend technologies such as node and mongo DB as well as JavaScript and Bootstrap on the front end.

Crypto Dashboard
- Utilized RapidAPI to build a site that offers current cryptocurrency news and live prices of the top cryptocurrencies to gain experience using APIs and ANT Design.

Producer's Website
- Designed and built a single page promotional site for an artist and deployed to a custom domain using GitHub pages.

Education

Bachelor of Science, Major in Computer Science   December 2021
California State University East Bay, Hayward, CA
      Dean's List 2021

Hard Skills

- HTML
- ReactJS
- JavaScript
